by Taylor Larimore,  
Mel Lindauer,  
and  
Michael LeBoeuf

**10. “The Millionaire Next Door”**  
by Thomas J. Stanley  
and William D. Danko

### **1# “The Intelligent Investor” by Benjamin Graham:**

This classic book is considered a must-read for any investor, and it focuses on the principles of value investing. Here, Graham covers the fundamentals of investing in stocks and provides practical advice for managing a portfolio. Benjamin Graham was a British-born American investor, economist, and professor. He is widely known as the “father of value investing” and is credited with developing the concept of intrinsic value.

“To achieve satisfactory investment results is easier than most people realize; to achieve superior results is harder than it looks.”

---

### **2# “Security Analysis” by Benjamin Graham and David L. Dodd:**

This book is a comprehensive guide to the principles of financial analysis, and it covers topics such as financial statement analysis, industry analysis, and valuation. Benjamin Graham and David L. Dodd were both professors of finance at Columbia Business School and are considered pioneers in the field of security analysis.

“An investment operation is one which, upon thorough analysis, promises safety of principal and an adequate return. Operations not meeting these requirements are speculative.”

---

### **3# “One Up On Wall Street” by Peter Lynch:**

Peter Lynch is a successful mutual fund manager and the author of this book, which shares his insights on how to identify and invest in undervalued companies. He emphasizes the importance of researching and understanding the businesses behind the stocks.

“Go for a business that any idiot can run—because sooner or later, any idiot probably is going to run it.”

---

### **4# “The Little Book That Still Beats the Market” by Joel Greenblatt:**

This book introduces the concept of the “magic formula,” a simple, systematic approach to finding undervalued stocks. Joel Greenblatt is a hedge fund manager and the founder of Gotham Capital. He explains how to apply the formula and provides examples of how it has worked in the past.

“The magic formula is a simple way to identify good businesses when they are available at bargain prices.”

---

### **5# “The Warren Buffett Way” by Robert G. Hagstrom:**

This book examines the investment strategies of one of the most successful investors of all time, Warren Buffett. It covers topics such as value investing, dividend investing, and the importance of company management. Robert G. Hagstrom is a fund manager and the author of several books on investing.

“Warren Buffett looks for three things in a company:

- 1) a business he understands;
  - 2) favourable long-term economics; and
  - 3) good management.”
- 

### **6# “The Essays of Warren Buffett: Lessons for Corporate America” by Warren Buffett:**

This book is a collection of letters written by Warren Buffett to the shareholders of Berkshire Hathaway. It offers valuable insights into his investment philosophy and approach to business. Warren Buffett is a renowned investor and the CEO of Berkshire Hathaway.

“The best business returns are usually achieved by companies that are doing something quite similar today to what they were doing five or ten years ago.”

---

### **7# “The Most Important Thing” by Howard Marks:**

Howard Marks is the co-founder of Oaktree Capital Management and the author of this book, which shares his insights on the key factors that drive investment success. He covers topics such as risk management, market psychology, and valuation.

“The first rule of investing is don’t lose money; the second rule is don’t forget the first rule.”

---

### **8# “Common Stocks and Uncommon Profits” by Philip Fisher:**

This book is a classic guide to investing in growth stocks and emphasizes the importance of conducting thorough research on companies. Philip Fisher was a pioneering investor and the

founder of Fisher Investments. He also covers topics such as diversification and portfolio management.

“The true investor welcomes volatility, as he does not buy all his stocks at once.”

---

### **9# “The Bogleheads’ Guide to Investing” by Taylor Larimore, Mel Lindauer, and Michael LeBoeuf:**

This book is a practical guide to investing based on the philosophy of Vanguard founder John Bogle. It covers topics such as asset allocation, diversification, and the importance of low-cost index funds. Taylor Larimore, Mel Lindauer, and Michael LeBoeuf are all experienced investors and authors who have written extensively on personal finance and investing.

“In investing, what is comfortable is rarely profitable.”

---

### **10# “The Millionaire Next Door” by Thomas J. Stanley and William D. Danko:**

This book explores the characteristics and habits of wealthy individuals, and it shows how anyone can accumulate wealth through smart financial planning and disciplined saving and investing. Thomas J. Stanley was a professor of marketing and the author of several books on personal finance and wealth. William D. Danko was a professor of marketing at the University at Albany and a co-author of several books with Stanley.

“Wealth is more often the result of a lifestyle of hard work, perseverance, planning, and, most of all, self-discipline.”
