

I am a teacher having M.Sc Physics and M.A International Relations degree. I am also running my own Youtube Channel Named "[Seeker GK](#)" and lots of huge Facebook Educational and Informational pages. And this is the official Site of all my FB pages and Youtube Channel.

I have made this site

- Because it gives new readers some interesting contents and motivations. I will share here all new updates about competitive exams of Pakistan and of other countries. I think I can guide people in a better way as I have also been passed through such phases of these exams.

Here, you can find long and short posts both but majority will be lengthy posts.

It's me FARHAN KHAN
